Summary Information

Repository:	National Center for Atmospheric Research (NCAR) Archives
Creator:	Kuettner, Joachim P.
Title:	Joachim P. Kuettner Papers
ID:	- 04.JPK
Date [inclusive]:	1938-2010
Date [bulk]:	1974-2005
Date [inclusive]:	Date acquired: 2011-03-17
Physical Description:	7.00 Linear Feet
Language of the Material:	English
Abstract:	Arrangement is by material type. The collection consists of seven series in eight boxes: Series 1: Field Projects, 1969-2007, undated Series 2: General, 1962-2009, undated Series 3: Presentations, 1983-2010, undated Series 4: Research, 1938-2006, undated Series 5: Soaring, 1949-2007, undated Series 6: Audio-Visual, 1966-2010, undated Series 7: Artifacts

[^ Return to Table of Contents](#)

Scope and Contents

This collection documents the life and work of Dr. Joachim P. Kuettner. Spanning much of Dr. Kuettner's lifetime, this collection includes material relating to his work as an atmospheric scientist with the WMO, including his involvement with the GATE Project, his career with the National Center of Atmospheric Research, and his personal research interests including his lifelong love of soaring. This collection contains correspondence, data, photographs, publications, reports, lecture notes, research materials, and manuscripts. Select materials have been digitized from this collection and are available in the NCAR Library's digital repository, OpenSky.

Administrative Information

Publication Statement

National Center for Atmospheric Research (NCAR) Archives

Conditions Governing Access

There are no access restrictions on this collection.

Conditions Governing Use

Not all of the material in the collection is in the public domain. Researchers are responsible for addressing copyright issues.

Source of Acquisition

Monika Kuettner

Method of Acquisition

Donated by Monika Kuettner, widow of Dr. Joachim Kuettner.

Accruals and Additions

No accruals or additions are expected.

Processing Information

This collection was acquired from the Dr. Kuettner's JOSS office upon his death. While great care was taken to preserve original order, the collection had multiple arrangement schemes, primarily topical, but also chronological, as well as folders with no apparent organization. Due to the overlapping organization schemes, the records were reorganized where necessary by the Archivist to preserve the primary topical organization scheme by the creator. Photographs were rehoused in preservation enclosures, and oversize items were removed from folders and rehoused. Audio-Visual materials were organized together and rehoused.

[^ Return to Table of Contents](#)

Controlled Access Headings

- Mountain wave
- Atmospheric turbulence
- Mountain wave -- Lee waves
- National Center for Atmospheric Research (U.S.).
- Global Atmospheric Research Program (GARP)

Physical Access Requirements

The collection must be viewed in the Archives during normal business hours.

[^ Return to Table of Contents](#)

Technical Access Requirements

Materials have not been reformatted to a digital medium yet. Films, VHS tapes, and computer disks may not be available due to playback issues.

Collection Inventory

Title/Description	Instances
Antique Airplane Association: Dr. Joachim Kuettner, "A Life in Aviation", 2009-04-01 <u>Date [inclusive]:</u> 2009-04-01	Box 7
Scope and Contents	
2 copies. Transcript location in Subject File collection, filed under Joachim Kuettner.	

Field Projects, 1969-2007, undated

Date [inclusive]: 1969-2007, undated

Scope and Contents

This Series includes information regarding Field Projects. Dr. Kuettner spent much of his career working to bring together large international reserach projects that included hundreds of scientists from diverse countries, with numerous airplanes, ships, satellites, and other data collection instruments. This Series includes project such as GATE, INDOEX, and others.

Research, 1938-2006, undated

Date [inclusive]: 1938-2006, undated

Scope and Contents

This Series includes material relating to Dr. Kuettner's diverse interests. This material covers background research for scientific projects ranging from mountain waves to sea surface temperatures. There also is material relating to Dr. Kuettner's time as an expert witness in a plane crash investigation, and his interest in unexplained atmospheric phenomena.
