Please reply to:
HIGH ALTITUDE OBSERVATORY
BOULDER, COLORADO

23 April 1959

Dr. M. A. Farrell
Pennsylvania State University
University Park, Pennsylvania

Dear Dr. Farrell:

Dr. Roberts has asked me to tell you that he is glad to accept an appointment as ~~Trustee-at-Large~~ for the University Corporation for Atmospheric Research. He left for a ten day visit at Sacramento Peak Observatory the day your letter arrived and is sorry that he didn't have an opportunity to write you himself.

He took with him a copy of the preliminary plans for a National Institute for Atmospheric Research, which he hopes to have an opportunity to look over in detail while he's at Sacramento Peak. He will probably be sending comments about the proposal along to Dr. Houghton within the week or two.

With best wishes,

Sincerely yours,

(Mrs.) Mary L. Andrews
Assistant to the Director
