Staff Notes

No. 147

April 10, 1969

The World Meteorological Organization (WMO) recently held a planning meeting in Melbourne, Australia, to consider the operational use of data gathered by GHOST balloons. Both our GHOST program and the French EOLE constant-level balloon project were represented at the meeting. EOLE was represented by a Frenchman named Oliver Carel, who is an engineer by profession and a cartoonist by avocation. Charles Palmer, who attended the meeting as acting director of the NCAR Facilities Laboratory, brought back some specimens of Carel's work, doodled during the meetings, that we thought our readers might enjoy as much as we did. We'll follow this one with others in future issues.

* * *

Staff members and their families who would like to see "Oliver!" -- the musical based on Charles Dickens' classic--can obtain tickets at special group rates. Ticket reservation forms, performance dates and other details may be obtained in the Personnel Office. The reduced rates will be good from April 27 to May 8th.

* * *

A list of members of the newly-formed Chess Club has been posted on the Cafeteria bulletin board. If you are interested in trying your hand, please feel free to add your name to the roster and indicate which times are most convenient for you to play.

- more -

The NCAR Concert next Wednesday evening will feature the University Trio. All staff members and their families are invited to attend both the concert, at 6 pm, and the reception following it. If you have not done so already, please call Anne Garrelts, extension 285, to let her know that you plan to attend.

"University Meteorology (or Atmospheric Science) Departments in the U.S. are not properly preparing their graduate students for future careers in this specialty area." This is the topic for debate at this month's meeting of the Denver branch of the AMS. Dr. Robert Stinson, of the Bureau of Reclamation, will argue the affirmative; Dr. Herbert Riehl, head of CSU's Department of Atmospheric Science, will take the negative. The meeting, which will also include the selection of officers for next year, is set for 8 pm, Monday, April 14 at the CSU Student Center in Fort Collins.

* * *

As a special service of obviously limited value, Staff Notes presents a selection of new book titles now available in the Mesa Library. This is by no means a complete listing of all new books acquired during the last month; rather, it is a highly selective and slightly whimsical list which represents only some books that we feel one might not run across in the course of an ordinary literature search.

Collins, V. H. A BOOK OF ENGLISH IDIOMS WITH EXPLANATIONS.
Longmans, Green and Co., 1960.

Conant, James B. SCIENTIFIC PRINCIPLES AND MORAL CONDUCT.
Cambridge Univ. Press, 1967.

Crain, Robert L. THE POLITICS OF COMMUNITY CONFLICT.
Bobbs-Merrill, 1969.

Glasstone, Samuel. THE BOOK OF MARS. NASA, 1968.

Harris, Zellig. MATHEMATICAL STRUCTURES OF LANGUAGE.
Interscience Publishers, 1968.

Hodge, Carle and Peter C. Duisberg. ARIDITY AND MAN.
AAAS, 1963.

Jackson, H. Sheldon and J. Standring. FRENCH COURSE FOR
TECHNOLOGISTS AND SCIENTISTS. D.C. Heath, 1960.

Neumann, G. OCEAN CURRENTS. Elsevier, 1968.

Piccardi, Giorgio. THE CHEMICAL BASIS OF MEDICAL CLIMATOLOGY.
Charles C. Thomas, 1962.

Secrest, Don and Jurg Nievergelt. EMERGING CONCEPTS IN COMPUTER
GRAPHICS. W.A. Benjamin, 1968.

Wood, John A. METEORITES AND THE ORIGIN OF PLANETS.
McGraw-Hill, 1968.

Calendar Notes

April 14 thru 18, 1969

MONDAY, April 14

- AG Special Seminar -- Mascons, Brian T. O'Leary, Cornell University
11:00 a.m.
HAO/AG Classroom 138
- Luncheon meeting of the Spanish Language Series
11:30 a.m. Monday
11:30 a.m. Thursday
NCAR Mesa Laboratory, Chapman Room
- Luncheon meeting of the beginning Russian Language Series
12:30 p.m. Monday
12:30 p.m. Thursday
NCAR Mesa Laboratory, Chapman Room
- HAO Special Seminar -- High Angular Resolution Radioheliograms at Low Frequency, J. Paul Wild, CSIRO, Sydney, Australia
3:00 p.m.
HAO/AG Classroom 138
- LAS Special Seminar -- A Theory of Infrasonic Waves from Large Atmospheric Explosions, C.J.R. Garrett, Institute of Oceanography, University of British Columbia, Vancouver
3:30 p.m.
NCAR Mesa Laboratory, Damon Room

TUESDAY, April 15

- Luncheon meeting of the intermediate Russian Language Series
Noon, Tuesday
Noon, Friday
NCAR Mesa Laboratory, Chapman Room
- Equipment Demonstration -- Stenorette dictating equipment, Western Ford Office Supply
1:00 p.m.
NCAR Mesa Laboratory, Director's Conference Room

WEDNESDAY, April 16

- University Trio Concert and Reception

6:00 p.m. Concert, Reception immediately following.
NCAR Mesa Laboratory, Lobby and Damon Room

THURSDAY, April 17

- Noon Movie -- It's The Only Air We've Got. Documentary film on the economic, aesthetic and health effects of dirty air and present and future air pollution control needs. Color. 25 minutes.

12:30 p.m.
NCAR Mesa Laboratory, Seminar Room

- Aviation Facility Advisory Panel Meeting

1:00 p.m. Thursday
9:00 a.m. Friday
NCAR Mesa Laboratory, Damon Room

- Synoptic and Dynamic Seminar Series -- Statistical Analysis of Spatial and Temporal Variability of Hydro-meteorological Elements, Paul Julian

1:30 p.m.
NCAR Mesa Laboratory, Seminar Room

FRIDAY, April 18

- Noon Movie -- It's The Only Air We've Got. Color. 25 minutes.

12:10 p.m.
HAO/AG Classroom 138

Calendar Notes announcements may be called to Anne Garrelts, Ext. 281. Wednesday at 5:00 p.m. is the deadline for items to be included in the Calendar for the following week. Other Staff Notes information or comments should be addressed to Diane Johnson or Henry Lansford, Ext. 260 or 261.
